8	CENTRAL INTELLIGIACE AGENCY Approved For Release 2002/08/08 : CIA-RDF INFORMATION REPO	RT CD NO.	25X1
COUNTRY	Germany (Russian Zone)	DATE DISTR 9	June 1952
SUBJECT	Information on Locomotive Columns and Loco Reserves of the DDR		2
PLACE ACQUIRED	25X1	NO OF ENCLS	25X1
DATE OF	25X1	SUPPLEMENT TO REPORT NO	

- 1. Source learned from the member of a locomotive brigade stationed in Frankfurt/Oder that a total of 78 brigade personnel assigned to the operational headquarters in Frankfurt/Oder had been sent back to their home stations on 1 March 1952. Personnel of the Berlin railroad district were mainly affected by this mersure, which was explained by a standing order, according to which brigade personnel must not be employed for transit operations to Brest Litovsk for periods longer than one year. All of those affected by the retransfer has been assigned to locomotive columns for four years. (1)
- 2. Source learned from fficial records of the Second Reilroad Subdistrict Office of the Berlin railroad district that all members of locomotive brigades who live in Berlin had been replaced by personnel from the Soviet Zone excluding Berline (1)
- 3. Starting in mid-Janury, the 25 locomotives of Locomotive Column No 3 were being overhaule at Fankow. In early February, some of these locomotives were returned to Rue mitz and Frankfurt/Oder. By 8 February, a total of 10 locomotives were returned. (2) The locomotive column stationed in Hoyerswerds will all gedly be transferred to Frankfurt/Oder. (3)

- 5. On 9 March, 6 type 5 and 12 type 52 locomotives were observed on a siding near Ruednitz north of Bernau. The locomotives were thoroughly overhauled and newly painted. Fur cabooses occupied by locomotive maintenance personnel and railroad police are seen near the locomotives. A spotlight about 50 centimeters in diameter was nounted on the roof of one of the cabooses. (2)
- 6. On 11 March, 12 ty: 52 locomotives with service personnel were observed parked on the siding between Bernau and Ruednitz. The locomotives, which were apparently reday for employment, were being kept cold. On 21 March, the locomotives were observed on the same spot. (2)
- 7. Twenty type 52 loc motives were observed on the siding of the Ducherow

	railwoad station in Farch. The locomotives were sealed, (4)
€.	Twenty type 1952 locometives were observed on the siding just southwest of the Cottbus freight station on 28 March. The locometives were neally painted and their easily damageable parts were boarded up. On 26 March, nine type 52 locometives were seen on a siding immediately north of the Luebbenau railroad station. (5)
(1) (2)	These items in paragraphs 3, h, 5 and 6 refer to the lecomotives of
	Locometive Column No 3, which are kept cold but serviceable as a locometive column reserve. After being kept cold
	for some time, the lecomotives were apparently overhauled in Pankow and then returned to Ruednitz.
(3)	Two other sources recorted that Locomotive Columns No II in Hoverswerda and No IC in Sottbus were deactivated. The equipment of Locomotive Column To II was reportedly transferred to Engaleury (other
	and No 10 in Sottbus were deactivated. The equipment of Locomotive Column To 11 was reportedly transferred to Frankfurt/Oder.
(3)	and No 10 in Sottbus were deactivated. The equipment of Locomotive Column to 11 was reportedly transferred to Frankfurt/Oder. This confirms that the locomotives of deactivated Locomotive Column No 13
	and No 10 in Sottbus were deactivated. The equipment of Locomotive Column No 11 was reportedly transferred to Frankfurt/Oder. This confirms that the locomotives of deactivated Locomotive Column No 13 are being kept as a reserve in Ducherow.
(4)	and No 10 in Softbus were deactivated. The equipment of Locomotive Column No 11 was reportedly transferred to Frankfurt/Oder. This confirms that the locomotives of deactivated Locomotive Column No 13 are being kept as a reserve in Ducherow. The assignment of these locomotives is not clear. They belong either to deactivated Locomotive Column No 11, previously in Moyerswerda, or to
